

DIVERSIFIED INFORMATION TECHNOLOGIES AND SAVANA, INC. FORM STRATEGIC ALLIANCE

Alliance Expands Diversified's Information Lifecycle Solutions in the Financial, Insurance & Healthcare Industries

Scranton, Pa.— May 13, 2010-- Diversified Information Technologies, Inc. (Diversified), a leading provider of document and information lifecycle solutions, announced today that it has formed a strategic alliance with Savana, Inc. Under terms of the alliance, Diversified and Savana will co-develop client solutions that combine the EPITOME business process management platform and Diversified's proven information management processes.

Diversified's solutions manage the complete document and information lifecycle and include records management for both physical and electronic records, virtual mailroom, document imaging, workflow automation and information management consulting. By integrating the EPITOME Suite into its information lifecycle solutions, Diversified will create more flexible and rapidly configurable business process management solutions with little or no customer disruption.

"Our companies' combined strengths, complementary markets and services, and solid leadership teams create a synergy that will greatly benefit our customers, enabling them to improve the flow of business information in new ways and driving greater business efficiency," said Joseph O'Boyle, VP of Strategic Acquisitions for Diversified. O'Boyle continued, "As a leading provider of services that facilitate the transition to electronic records in the healthcare and financial services industries, customers will also benefit from the increased speed to market that this alliance will provide."

"Our alliance with Diversified is a win-win for our customers who are managing an increasing volume of information," said Michael Sanchez, Chairman and CEO of Savana. "Diversified's services encompass the entire information lifecycle and all media types, which is an ideal complement to our technology platform."

The integration of the EPITOME technology platform will further enhance Diversified's information lifecycle solutions including information Output, Capture, Process, and Preserve functionality.

These solutions encompass:

- **Output:** Print output services for statements, bills, and other business documents
- **Capture:** Document imaging and data conversion to manage all types of data: paper, film, and electronic

- **Process:** Rapid configuration of workflow processes and data integration into client applications
- **Preserve:** Storage solutions for paper and electronic records and data

About Diversified Information Technologies

Diversified Information Technologies, founded in 1982, is headquartered in Scranton, PA, two hours from NYC. Diversified's solutions manage the complete document and information lifecycle and include records management for both physical and electronic records storage, electronic mailroom processing, document imaging, print and electronic presentment, workflow automation and information management consulting. Diversified has 24 U.S. and four international locations. For more information, visit www.diversifiedweb.com

About Savana

Savana, Inc. is the provider of the EPITOME Suite of software -- a Dynamic Business Process Automation Suite that features powerful content management, business rules, workflow management, comprehensive real-time productivity dashboard and reporting tools. The EPITOME Suite allows users to observe, predict, and manage trends to improve the flow of business, drive efficiency and consistently deliver timely execution of work processes. Business rules and work flow processes can be modified on the fly to allow users to adapt to changes in their business environment or to gain efficiencies with straight through processing. Savana markets primarily to Financial Services, Insurance and Business Process Outsourcing organizations. The software's unique architecture can be quickly configured and implemented in 30 to 120 days. Savana was formed in 2009 to acquire the assets of Epitome Systems, Inc.
